## FULL STACK WEB DEVELOPER

### CAREER OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in MERN stack technologies, including HTML, CSS, JavaScript, React, and Node.js. Eager to launch a career in a dynamic organization where I can apply my skills to build innovative web applications, solve real-world problems, and grow alongside a talented team.

### TECHNICAL SKILLS

- JavaScript
- NodeJs
- Express.js
- Firebase
- HTML, CSS
- ReactJs
- MongoDB, Mysql
- Redux

### PROJECTS

#### Cloud photo gallery May 2023

- Developed a web application that allows users to securely upload, store, and manage photos in the cloud.
- Implemented cloud-based storage and retrieval of photos using MongoDB and Node.js.
- Utilized Bootstrap for a clean and structured design, ensuring smooth user interaction.

#### Property\_prime April 2024

- Developed dynamic search filters for property listings based on location, price, and property type.
- Integrated real-time database updates using Firebase for seamless property management.
- Built an interactive UI with React and Tailwind CSS, enhancing user experience.
